Education

Durham College	Sep 2024 – Aug 2025
*Postgraduate Diploma in Cyber Security	GPA: 4.58/5.0*	*Oshawa, ON*
Durham College	Sep 2024 – Aug 2025
*Postgraduate Diploma in Cloud Computing	GPA: 4.63/5.0*	*Oshawa, ON*
K.J. Somaiya Institute of Management Studies and Research	2019 – 2022
Master of Computer Applications	*Mumbai, India*

Experience

Cloud Engineering Intern	May 2025 – Aug 2025
Trinamix Inc.	*Toronto, ON*

- Engineered AI-powered analytics dashboards on Oracle Cloud ERP using Python and Oracle EILM AI, accelerating reporting workflows by 30% and improving forecast accuracy by 25%
- Automated SaaS configuration and deployment processes with n8n workflows and REST APIs, reducing setup time by 40% while maintaining security compliance standards
- Integrated LLM-based analytics tools to streamline ERP data analysis, cutting manual reporting effort by 35%
- Documented cloud architecture best practices and AI deployment procedures, enhancing team onboarding efficiency

Software Developer	Aug 2022 – Apr 2024
Aurionpro Solutions	*Mumbai, India*

- Developed critical financial applications for FDI and ODI transaction systems using Java (Struts, Hibernate), managing high-volume transactions with 99.9% reliability
- Optimized Oracle SQL database performance by 40% through query tuning and indexing strategies, supporting large-scale transaction processing and reporting
- Built responsive front-end interfaces with Angular to streamline user interactions with financial applications
- Configured and managed Oracle WebLogic server environments, ensuring application stability and scalability
- Collaborated with cross-functional teams in Agile sprints to deliver secure, high-quality solutions while maintaining information security compliance

Software Intern	Jan 2022 – Aug 2022
Aurionpro Solutions	*Mumbai, India*

- Supported development and testing of FinTech applications for FDI/ODI systems, identifying bugs and verifying fixes to ensure quality standards
- Collaborated with product management and QA teams to gather requirements and align software solutions with business objectives
- Documented software specifications and user manuals, ensuring clear communication of technical processes

Projects

High-Availability Web Application on AWS

- Architected scalable infrastructure using AWS EC2, RDS, S3, and Auto Scaling with CloudFormation, implementing security best practices and monitoring for 99.9% uptime

CI/CD Pipeline with GitHub Actions

- Configured automated deployment pipeline using GitHub Actions and OpenID Connect, enabling secure zero-downtime releases with comprehensive testing capabilities

Technical Skills

Cloud & Infrastructure: AWS (EC2, RDS, S3, CloudFormation), Oracle Cloud (OCI, ERP, EILM AI), Linux/Unix
Programming: Java (Struts, Hibernate), Python, SQL, JavaScript, Angular, Bash scripting
DevOps & Automation: CI/CD (Jenkins, GitHub Actions), Docker, Terraform, n8n workflows, REST APIs
Databases: Oracle SQL, MySQL, PostgreSQL, query optimization, performance tuning
Data Analytics & AI: Power BI, Python data analysis, LLM integration, AI-driven reporting
Servers & Middleware: Oracle WebLogic, system automation, security compliance

Certifications

AWS Academy Cloud Architecting | AWS Cloud Technical Essentials | ACCP PRO-JAVA EE Application Engineer
